

## BRIEF INFORMATION

### COMET FF 450 / FF 500 / FF 550

- Light technology in new design and various designs
- Available as high beam and fog lights
- Ideal for offroaders, pick-up drivers and SUV cruisers

## PRODUCT FEATURES

The COMET FF auxiliary driving lights unite modern design, convincing light performance and proven HELLA quality. As high-beam headlights they are the ideal supplement to the standard high-beam light and ensure as fog lights improved vision in case of fog, rain or snowfall. Three different models in modern design – optionally: rectangular, round or oval – integrate harmoniously into vehicle front-ends.

- Comprehensive, non-patterned brilliant clear-glass lens
- New free-form reflectors with computer-calculated light distribution for powerful light performance
- Sturdy plastic housing
- Reflector tightly adhered to the glass lens
- Shallow installation depth for problem-free fitting
- Dimensions correspond to the previous series COMET 450, 500, 550. Hence, the COMET FF 450/ FF 500/ FF 550 are fully compatible for interchanging with the predecessors (same attachment and fitting options as the previous series)
- ECE type-approved

## RANGE OVERVIEW

### Comet FF 450 - rectangular and distinctive

H3 high beam and fog lights  
with black plastic housing for upright and pendant installation  
Weight: 520 g

High-beam light (Ref. 12.5)	<b>1FB 010 951-011</b>
